

CORE BREAKER

model 690 / 930

The CORE BREAKER breaks up aeration cores over a 6 or 8 foot working width. The rotor's action separates grass roots from the soil, and deposits nutrient rich soil and organic matter back on the turf.

The rotor is made of wire impregnated rubber fingers. This rotor rotates between 2 rows of stationary knives to completely break up aeration cores and separate chaff from the soil. A rear mounted flexible steel drag mat evenly applies rich soil back onto the turf.

After using the CORE BREAKER, only the stubble will show. To remove it, simply go over the area with an AgriMetal blower. Once both of these operations have been completed, golfers can walk and play on the course without any inconvenience.

AgriMetal is committed to building a complete line of innovative debris removal equipment. Our experience in building turf equipment has taught us to build superior products, and market them through an exceptional turf dealer network. **Give us a try ! You will like what you see !**

FEATURES :

- Works over a 6 or 8 foot working width
- Cover from 3.5 to 5 acres per hour.
- Breaks up the aeration cores.
- Separates nutrient rich soil from root material in cores.

SPECIFICATIONS

SPECIFICATIONS		
690 MODEL		
MACHINE LENGTH	42" (107 CM)	
MACHINE WIDTH	77" (196 CM)	
MACHINE HEIGHT	55" (140 CM)	
MACHINE WEIGHT	600 LBS (273 KG)	
HITCH	3 POINT	
DRIVE	PTO 540 RPM	
RECOMMENDED HP	30 HP	
PRODUCTIVITY	3.65 ACRES / HOUR	
FLEXIBLE STEEL DRAG MAT	36" X 72" (91CM X 183 CM)	
SHIPPING DIMENSION	80" X 48" X 48" (203CM X 122 CM X 122CM)	
SHIPPING WEIGHT	700 LBS (318 KG)	

Specifications, descriptions, and illustrative material in this literature are as accurate as known at the time of publication, but are subject to change without notice. Illustrations may include optional equipment & accessories, and may not illustrate all standard equipment.
